Link+ Pro

- Link+ Pro is an upgraded technology by X-Sense, which offers 2 connectivity options to cater to your preferences.
- When linked to the base station, devices maintain wireless interconnection, and additionally you'll receive real-time notifications through the app.
- Alternatively, Link+ Pro units can independently connect with other Link+ or Link+ Pro series devices, even without the SBS50 base station. These devices form an interlinked network, where all will sound if one is triggered to provide maximum safety.
